

WGMI is a small market AM station owned by Garner Ministries, Inc. Our slogan is "Christian Family Radio", and we take pride in providing broadcasting the entire family can listen to safely. We never air anything remotely controversial, and have never recieved a complaint as to our programming. We are a family ministry struggling to survive with this one station, against stations that have millions in financial backing. Requiring us to record & log our programming every day from 10p-6a would hurt us terribly financially, and add many man hours of work to a station that already has only one full time employ. Why penalize us & the rest of the responsible broadcasters for the small amount of broadcasters that are not? Please reconsider this proposed action, it could be the death toll for many small broadcasters. Gregory Scott Garner
